

Pacaiman

Tasks

- ☒ Task 1 — Improve the evaluation function with new heuristics
- ☒ Task 2 — Train the model with good games
- ☒ Task 3 — Implement AlphaBetaNeuralAgent
- ☒ Task 4 — Report results in a comparative table
- ☒ Task 5 — New layout to test
- ☒ Task 6 — Record the video of the best game

Run

```
./scripts/run.sh # to play with keyboard  
./scripts/run.sh -p RandomAgent # to play with random agent  
./scripts/run.sh -p NeuralAgent # to play with neural agent  
./scripts/train.sh # to train the neural agent
```
